

## Senior Researcher (various teams)

*Become an indispensable part of the team that develops an LFP battery cell. You will be building something that will be mass-produced and have a lot of fun along that way*

### You can expect to

- Be member of the great team that explores possibilities and designs unique LFP cell that will be comparable to our benchmarks and can be mass-produced
- Use your knowledge and experience to speed-up research and production
- Troubleshoot and solve difficult problems (regarding your expertise)
- Analyze confusing test results and explain them without just blaming suppliers for it
- Designing, planning and conducting various experiments
- Setup a data-driven system that will give you the desired performance
- Introduce fresh ideas and improve our processes
- Get extreme enjoyment when you realize that the battery actually works

### Teams

You can have a lot of possibilities in ElevenEs, so you can tell us which team is the best fit for you:

- Cell design
- Electrode research (cathode)
- Electrode research (anode)
- Electrolyte research
- Separator research
- Other/novel materials research
- Cell assembly
- Formation and testing

### You will also get

- A reasonable level of independence and influence
- A seat alongside founders
- Asked about your training, development and career advancement
- An opportunity to be promoted to a team leader
- A chance to learn from the amazing management team and work with the most modern technologies
- Great compensation and benefits increases
- Sense of pride for working in the only high-tech lithium-ion battery production company in the region

### Profile

State of mind: Research lab - My happy place

Preferable experience: Being a part of the team that has created a product that has undergone the serial production

Professional confidence level: I know what I'm doing

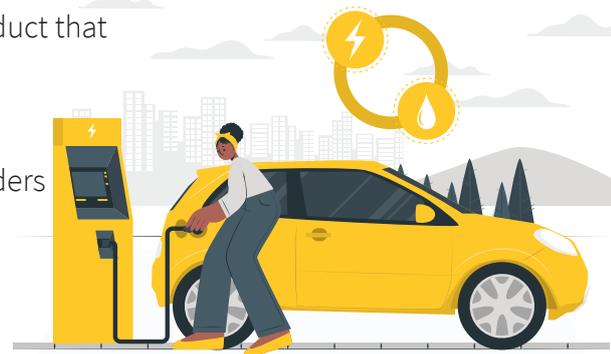

Management expertise: I always had a great experience with top and middle management, that is why now I have less than 3 restraining orders

Research experience: Been there – Seen that – Enjoy doing that

People skills: Able to listen to other people, talk to them, understand their point of view, goals and motivation

Personality: Stable and inquisitive

The best possible skill to have: Ice-cold breath for quickly extinguishing any fire

Send us your LinkedIn profile or CV and motivation letter (we actually read those)
